

“The Changing World of Work: Women’s Economic Empowerment with CEDAW”

Friday, March 17, 2017, 10:30 – 12 Noon EST,
 Armenian Cultural Center, Guild Hall,
 630 Second Ave, NY NY, 10017 (at 35th St.)

Event Description

A panel of women from the USA, Czech Republic, Iran, Uganda and Nepal will hold Conversations on the barriers and responsibilities of today’s work places locally, nationally and globally with recommendations for action. They will share successes and barriers in advocating for the advancement of gender equity and inclusion of women’s rights in the evolving and challenging workplace. How do we promote social and economic policies to reflect the higher representation of women in the workforce? How do we use human rights frameworks such as CEDAW to empower women at all levels including rural, urban and outsourced? The double burden of women’s dual roles in the care and market economies threatens as more women enter the workforce due to necessity and self-actualization.
